GEN. SCHOFIELD INDISPOSED. The War Department Temporarily Without a Head.

Gen. Schofield, now acting as Secretary of War, sent word to the War department this morning that he was not feeling well, and conse quently would remain at home. The department was therefore practically without a head, though a few matters requiring immediate at tention were taken to the general at his rooms, He has been pretty hard worked of late, having not only his own duties, and, to a large ex-tent, those of the Secretary, but also the meet-ings and work of the fortification board to attend to. The board has about finished its June labors, and the officers will probably return to their stations early next week.

THOMAS DESMOND TALKS.

He is not in Hiding, Did not Know Cronin, and is not a Clan-na-Gael.

A dispatch from Chicago credits the Herald of that city with stating that Thomas Desmond, who is a prominent Irishman on the Pacific coast, is wanted by the Chicago police for complicity in the murder of Dr. Cronin, Mr. Desmond is stopping at the Hotel Johnson, in this city, where he has been since the 22d of May. He is strongly backed for appointment to some office under the administration, and he is in the city in connection with that business. A STAR reporter found him to-day seated in the lobby of the hotel. He said that he was surprised to see his name mentioned in connection with the murder of Dr. Cronin. He stated that he did not know Dr. Cronin and had never met him, and that he was not a member of the Clan-na-Gael. Mr. Desmond said he was in New York at the time of the

HE IS READY, IF WANTED. Yesterday, in company with Mr. Thomas Walsh, of this city. Mr. Desmond went to the first precinct station and informed Lieut. Amiss that he was at his disposal. But he found that the police had no information in regard to him. He said to-day that he had heard nothing more about the matter, but he held himself in readi ness. He wanted it to be understood that he was not in hiding, and, further, that he had done nothing in his life to be ashamed of.

WILL SEE DILLON LATER. Mr. Desmond attributes the rumor of his connection with the case to Lake Dillon, whom he met casually in New York just before he left that city for Washington. He says that before he returns to San Francisco he intends to meet Mr. Dillon and tell him what he thinks about

RAIN RETARDS THE WORK. Gen. Hastings' Energetic Labor at Johnstown.

THE DRIFT TO BE HEREAFTER BURNED IN ORDER TO PREVENT DISEASE-THE CONTINUED WET WEATHER CAUSES MUCH SICKNESS-ALL THE WORKMEN THAT ARE WANTED.

Johnstown, Pa., June 14 .- With the addition of nearly 1,000 new men. Contractor Mc-Knight states this morning that he expects to do more effective work to-day and to-morrow than has been accomplished altogether since the disaster occurred. The question about the price of labor has been settled, and there are to-day about 1,750 men at work on the drift at the stone bridge. This morning the advantage to be gained from burning all that can be burned is readily apparent. The river in places is almost clear of wreekage, and the work of pulling it out is comparatively easy. Seven hoisting engines are pulling out of the jam all that can be pulled and piling it on the river bank. To-night the drift thus accumulated will be burned. Contractor McKnight expects to have the river cleared of wreckage by to-morrow evening. The dynamiting still goes on and is gradually loosening the drift. MORE RAIN FALLING.

A heavy rain began falling at 8:30 o'clock this morning and has greatly retarded the work of clearing away the debris. Nearly all of the laborers have deserted their places and eing. The rising water in the Conemaugh river will, however, greatly assist the workmen in floating the debris away when the rain ceases and they return to work. Nine members of the Philadelphia fire department arrived this morning. Four engines from Phila-delphia will arrive during the day and will be used to pump water out of cellars, as well as protection from fire. Dr. Miller, of the state board of health, says that he fears that the con-

WET WEATHER WILL CAUSE MUCH SICKNESS. especially pneumonia. He reports one case of typhoid fever in Minersville and several new cases of chicken-pox and measles to-day. Up to noon to-day four bodies were recovered, taken to the morgue and afterward buried in Prospect cemetery. Two were identified as the bodies of Mrs. Frawater and Miss Mary C. Coad. The remains of a six-months'-old female child and a young man were unidentified. Miss Coad's remains were discovered in her father's home. The other bodies were found in the wreck near the first ward school-house

THE CROWDS AROUND THE COMMISSARIES, which seem to increase with each day, are a mud-bedraggled set. The entrance to each station is very narrow, yet into them the women and children, each with a capacious basket,

crowd like sheep into a pen.

The line is a long one, and those who are so unlucky as to have arrived after 6 or 7 o'clock have been standing unprotected, and in some instances half-clad, in the pouring rain. Their baskets are generally well filled, yet on leaving the commissaries complaints are heard on all sides of "no butter nor anything fresh after weeks." &c.

In one way the rain to-day is regarded as a blessing, as the terrible stench from the burning flesh, which was almost unbearable last night, is scarcely noticeable.

GEN. HASTINGS WAS OUT EARLY as usual this morning, and was kept exceedingly busy. Telegrams are flooding in to him from all parts of the country-contractors who want a chance at the work of clearing the debris. In an interview this morning he said:
"We have now about all the workmen we need, and if it was not for the rain this morning we would have at least 2,500 men at work. Of course this weather will knock out everything while it continues. We have now the work systematized, and I don't enticipate any further trouble. A vast amount has already been done, yet it is hardly noticeable."

BLOWING UP THE DRIFT. The drift at the stone bridge is being gradually cleared. Dynamite is the only thing that has any effect upon it and to-day 150 cartridges are being put in at a charge and the noise from the explosion can be heard for the noise from the explosion can be heard for miles, and Engineer Phillips, who is in charge of this work, expects to have it finished by Sunday. A number of lumbermen from the Clarion region were engaged clearing the wreckage with their hooks last night and this morning, and their work was so effective that another detachment has been sent for. Engineer Phillips says they are doing everything in their power to-get out what bodies are in the wreck, but it is almost impossible to get at them.

TO PULL DOWN UNSAFE BUILDINGS. It has been decided to tear down all unsafe buildings in the town and burn the wreckage. This will be done as soon as the Philadelphia fire-engines are on hand to protect property that is safe. A house-to-house canvass will be inaugurated to-morrow to secure as near as possible an accurate list of the living and dead for the

state officials. The system of registration at-tempted a week ago was not effective. A peculiar feature of the flood was that of 138 saloons in Johnstown and the surrounding towns but two escaped destruction. The Chi-nese laundries were also completely wiped out nese laundries were also completely and a number of Chinamen are miss The Pennsylvania Railroad's Loss.

PHILADELPHIA, June 14.—Pennsylvania railroad officials have not yet estimated the amount of damage done to their property by the recent flood and will not be able to do so for nothing like as great as was at first reported. They say that \$3,000,000 will cover everything that can be replaced. It is now stated that the main line between Harrisburg and Pitteburg will be opened for freight and passenger business by Saturday.

Another Victim Dies. DUBLIN, June 14.-Margaret Huston, one of the persons injured in the railroad accident near Armagh Wednesday, has died from the effects of her injuries. Business still remains suspended in Armagh. The only disturbing elements of the dull monotony of the streets are caused by the frequent funeral processions to the churchyard outside the city.

THE CRONIN MURDER CASE. Dillon Does Not Believe Desmond is at all Implicated.

ADDITIONAL EVIDENCE AGAINST ICEMAN SULLIVAN -THE HAREAS CORPUS PROCEEDINGS IN BEHALF OF MARONEY AND M'DONALD-THEY ARE NOT YET FREE-A CRONIN MEMORIAL MEETING.

CRICAGO, June 14.-Friends of Tom Desmond, the Californian against whom suspicion was directed because he happened to be at Mc-Coy's hotel when John F. Maroney was there last April, say he is incapable of committing murder. Owen-Murray, the State street saloon keeper, who has known Desmond for years, says that when the Californian left Chicago be proceeded directly from New York to San Francisco. If this is true be could not have participated in the cruel murder. The only suspicion that attaches to him is the coninc dence of his meeting with Maroney at Mc-Coy's hotel and the additional fact that he was

a warm supporter of the triangle that once misruled the Cian-na-Gael.

DILLON ON DESMOND. Luke Dillon does not believe Desmond had anything to do with the murder. "I met Tom Desmond in New York either the 29th or 30th of April," said Mr. Dillon. "Desmond was at-tending the celebration of the centennial. I had quite a talk with him, having known him for years. I remember speaking about the coming convention, and expressed my views quite emphatically. Desmond agreed with me and told of the condition of affairs on the Pacific coast. This, of course, was before the death of Cronin. Tom Desmond is a brave and an honest man, and I do not believe he would take any part in a murderous con-

EVIDENCE AGAINST ICEMAN SULLIVAN. The News this morning says that the contract with Dr. Cronin is not the only damaging evidence against Iceman Sullivan, but that, unknown to his most intimate friends, he payment of hired assassins for the murderous deed. It will be remembered that the Carlson cottage was hired and the household goods moved into it from 117 Clark street between March 20 and 22. It has been ascertained that on March 26 P. O. Sullivan mortgaged his ice wagons and horses for \$600. A peculiar cir-cumstance connected with the transaction is a rule, lose no time in getting a chattel mortgage recorded after the money has been ac-tually paid out and consequently

THIS DELAY SEEMS VERY STRANGE. On May 4, Dr. Cronin was murdered, and on May 4 the Real Estate and Building Journal was published, and under the head of chattel mort-\$600 received from McBride was paid to Sullivan only a few days before Dr. Cronin's death. These dates are very suggestive, and the question arises: What connection has this money transaction with the murder for which Sullivan is now under arrest. that Sullivan was.

PARTY TO THE WHOLE UNDERTAKING. and that as soon as the cottage was hired Sullivan lost no time in making provision, as shown above, either for his own escape or for the pay of the assassins. The money was not to be paid to him till about the date of the murder, and this would predude the necessity of publishing the record of the mortgage before such time as would interfere with the plot. Then when the day fixed for the crime had been determined the money was secured and the deed was done. The probability is that the \$600 was paid to the men who mur-dered or assisted in the murder, since Sullivan had ample time to effect his escape had he

chosen to do so. Perhaps he felt secure and delayed his own departure too long. A Memorial Cronin Meeting. Arrangements for the big memorial meeting, which will be held on June 28, to commemorate the murder of Dr. Cronin, are nearly completed. The managing committee has issued invitations to leading citizens of every nationality, and it is expected that the hall will be crowded with representative men. Mayor Cregiler will preside, and Gov. Fifer will deiver an address. The stage will be occupied by congressmen, leading lawyers, editors and the officers of societies. A feature of the program will be singing by several German so-cleties that have promised to be present in a

It was sub-sequently ascertained, however, that the report was false. Mr. Conklin is all right and attend-ing to his business at Clark and Illinois streets

A DELAY IN SULLIVAN'S CASE. At the opening of his court this morning, Judge Tuley said he would not be ready to announce his opinion in the matter of allowing Alex. Sullivan's release on bail until 3 o'clock. It is reported that this course was taken because it is in the matter to-day.

The Habeas Corpus Proceedings in the Cases of Maroney and McDonald.

New York, June 14.-The writs of babeas orpus for John J. Maroney and Charles Mc-Donald came up this morning, one before Judge Patterson in the court of over and terminer and the other before Judge Andrews in supreme court chambers. Both court-rooms were filled with Irishmen and Irish sympa-thizers. Judge Andrews sent the McDonald case into Judge Patterson, and that functionary, after consulting with Judge Andrews, an-nounced that he could not hear the arguments, but would send the writs back to the supreme court. Assistant District Attorney MacDona appeared for the people, John Delehanty for McDonald, and David M. Newburger for Maroney. Mr. MacDona did not seemed inclined to make anything but verbal returns to the write in view of the probable granting of extradition papers by the governor next Monday, but Judge Andrews said he had nothing to do with extradition papers, and that written re-turns must be made by those to whom the writs M'DONALD'S ALIBI.

McDonald's counsel said his client's employer was in court prepared to show that the prisoner was at his work in this city when the Cronin murder was committed, and that there was also a gentleman present who had slept with McDonald in New York that night. MARONEY'S COUNSEL DECLARED

that the warrant was not properly issued and that his client was not regularly committed. The evidence, he contended, was such that no some time yet. It is stated that although it would be easy to approximate the amount necessary to replace bridges and tracks, the roadway is seriously washed in very many places, so that years will be required to place it in first-rate condition. The loss in such respects is hard to calculate. The loss, however, will be nothing like as great as was at first reported. being adjusted Maroney caught sight of Devoy, and as he was being taken away gave him a sharp and "1-will-ag-avg/segp" sont of Look. Gov. Fifer Not Surprised.

BLOOKINGTON, ILL., June 14.—Governor Fifer at midnight last night, when shown the reports of Governor Hill's refusal to honor requisitions for Maroney and McDonald, expressed no surprise whatever, and had nothing in the way of an opinion in regard to the matter. The requisitions were in regular form.

pewa Indians are on the war-path again, and

there are grave fears of a general uprising. Already seven Swede laborers have been massacred and several hundred laborers and settlers are now hurrying here for safety. Sheriff Nicolsen, mounted on an Indian pony, rode to town on a gallop yesterday and gave the alarm. He also communicated with Gov. Merriam, requesting him to order out the state troops to quell the aprising. The present trouble is the outgrowth of encroachment by the whites upon the Mille Lacs' reservation. Recently a contract was awarded by the settlers to Foley Bros., of St. Paul, to dig a ditch for for Foley Bros., of St. Paul, to dig a ditch for irrigation purposes from Mille Lac's lake to a point on the Smoke river near this place. When the Iudians learned a ditch was to be ing they at once came to the conclusion that the intention was to drain the latter and deprive them of their fishing privileges. Notice was served by the Indians upon the contractors, warning them that if they did not leave the

THEY ATTACK A GANG OF LABORERS, SCALPING AND TERRIBLY MUTILATING THE BODIES OF

THEIR VICTIMS-THE EXPLANATION OF THE

RAID BY THE GOVERNMENT COMMISSIONERS. St. Paul. Minn., June 14 .- A dispatch from Mora, Minn., says: The treacherous Chip-

territory at once THEY WOULD BE PUT TO DEATH. The contractors gave no heed to the warning, but came here and engaged 300 laborers, who began work vesterday morning at Mille Lacs. About noon yesterday they were attacked by a party of about 400 Chippewas led by White Snake and Great Bear. The Indians were in full war paint and armed with Winchester rifles and tomahawks. As soon as they saw the

reds coming the laborers dropped their shovels

and fled toward this place.

They were pursued by the savages, who shot and killed seven men. Their names are: Olaff Magusen, Christian Raemussen, Bernt Toerr-dahl, Aug. Swanson, Gustav Doderstrom, Carl Speh, Jacob and Skoll, Several others were wounded but not seriously. The Indiana scalped Toderstrom and Maguson and mutilated the bodies of Speh and Skoil in a fiendsh manner. The Indians, who have been gathering on the south shore of Mille Lacs lake for a week or more, Wednesday night engaged in a war dance as a preliminary to the massacre.

Three of the seven victims have families here in destitute circumstances. Ex-Senator H. M. Rice, of St. Paul, Bishop Marty, of Dakota, and Dr. Whiting, of Wie consin, commissioners appointed by President Harrison to treat with the Chippewa Indians, are in this city, and were to have started out next week to negotiate with the tribes at Mille Lacs. All three were seen by a reporter last

WRAT COMMISSIONER RICE SAMS. "The situation between the government and the Indians at Mille Lacs," said Senator Rice, has been a critical one for many years, and the affairs have been in a very unsettled state. Difficulties have repeatedly arisen regarding their ownership of the land which they occupy. They are in a wretched condition and very much demoralized. Whisky is to be had all made careful provisions either for his own around them, and is accessible at innumerable escape after Cronin had been killed or for the points on the border of the reservation. The points on the border of the reservation. The massacre is no doubt attributable to a drunken spree. I don't apprehend that it will extend over any long period of time. The Mille Lacs have not been a bad people. During the Sioux outbreak in 1882 some of the Chippewas from the Upper Mississippi, with Hole in the Day at their head, were anxious to join the Sioux and make war on the whites. They sent messages that the mortgage was not recorded until the to the Mille Lacs, and asked them to go with last week in April, although the document it-self had been drawn up about a month before. It is a well-known fact that money-lenders, as their service to the state. But for the last ten or fifteen years, through fear of losing their property, they have been very unsettled and demoralized. Their pine lands have tempted the whites to encroach upon the reservation."

BISHOP MARTY'S VIEWS. Bishop Marty, of Dakota, one of the three returned to camp, refusing to remain out in gages, announced that of Sullivan's. This journaments are weekly and publishes regularly all mortgages recorded. The probability is that there was no connected action in the uprising. He thought there they would not have committed the outrages. He was confident there was no Catholic mis-sionaries among them, for had there been they money transaction with the murder for which Sullivan is now under arrest.

Continuing, the News explains it by claiming that Sullivan was.

would have been able to prevent it. Speaking of the effect upon the commission he said: I think it will help us, and I will demonstrate to the sensible Indians that the time has come for them to give up their reservation life and be-come like white men. Dr. Whiting, another member of the commission, said: It is little wonder that the outbreak occurred. I did not expect it any more from them than from any one of the ten bands whom we are to negotiate with, but it is simply the result of the long delay in the realization of the promises plade by Congress. With true Indian instinct they became discontented and dissatisfied and jumped on the first white then they came across. A general uprising among the Chip-pewas is among the probabilities of the near

TROOPS READY TO MOVE. Mora, Minn., June 14.—At 10:80 last night commandants of three companies, third infantry, received an order to get under arms. Immediately upon receipt of orders all was bustle and activity at the post. Men out on passes, private and non-commissioned officers on guard duty and others preparing to turn in for the night were summoned to prepare for departure at once. Capt. G. W. H. Stanch was commandant of troops detailed for service, and he issued orders at once for the start, By 11:45 o'clock the entire outfit of baggage was on the depot platform at Fort Snelling, and the men were drawn up ready to board the train which arrived ten minutes later. The three companies with offi-cers made a total of 118 men. The train left the fort at 12:20 and was pulled into St. Paul to change engines. The start was made from Union depot at 1:20 a. m., over the Manitoba road. The average speed was 35 miles per hour, and the train reached Mora at 4:30 this morning. No one was in the vicinity of the depot except the telegraph operator and the man Evan Mickelson, who sent the telegram to the governor last night, and Mickelson was seen by a reporter a few minutes after the ar-

rival of the train. MICKELSON'S STORY. He stated he left the scene of the trouble as 6 o'clock yesterday morning, having been dispatched by a settler who instructed him to come to Mora to telegraph for aid. He said that the thought the grand jury will take some action Indians in that locality got hold of a lot of whisky during the past week, and were becom-ing very hostile. When asked as to how many people had been killed, Mickelson said a settler named Magnuson had been shot twice through the head and he thought he was dead when he left. He had not seen Magnuson himself but had been told the story by another man who had dispatched him to Mora for aid. The operator at Milaca reported this morning that a man came in few the Ledien reserved. in from the Indian reservation last night and reported Indians drunk and threatening settlers with firearms if they did not leave the vicinity. Beyond news brought by the last-mentioned and the man Mickelson nothing has been heard from the locality where it is claimed that the disturbance occurred. Capt. Stanck has commenced making arrangements start, and unless orders are received to the contrary, the troops will leave here about 9:80.

THE SAMOAN CONFERENCE.

A Meeting To-day-The American Commissioners Withdraw Their Objections. Berlin, June 14.-The Samoan conference will meet again to-day. It is expected that today's session will be the final sitting of the conference, or that at the furtherest its deliberations will be concluded to-morrow.

Dispatches from Bremen state that Mr. Wm.
